Hoover Raps New Deal, Capital Wonders If He Is Preparing For 1936

Speculation Stirred by Article by the Former President Published in Current Issue of the Saturday Evening Post.

MAN PAWN OF STATE

Says New Deal Is Usurpation of Liberty and Is Immediately Challenged by Secretary Ickes.

Washington, Sept. 4 (AP)—Political Washington wondered today if Herbert Hoover planned an attempt to return to the White House. The speculation—entirely informal—was stirred by an article by the former president published in the current issue of the Saturday Evening Post.

This was the first time since he left the White House on March 4, 1933, that Mr. Hoover has publicly expressed his views on political questions. He has written a book outlining his opinions in greater detail which will be published late this month.

The former president asserted the New Deal is a usurpation of liberty, and was challenged promptly by Secretary Ickes.

"When he speaks of liberty he is talking of the rights of property," said the Interior Department head, a former Republican. He added in a statement to newspapermen:

"The man who sees special privileges that he and his friends have exercised checked in any way immediately complains of an invasion of liberty."

Other officials remained silent pending a study of the article.

Whether a former president does as much as Hoover has done is watched closely by the political leaders for straws in the wind as to intentions. Mr. Hoover has given nothing of his ideas as to seeking reelection in 1936, but to the political mind a one-time president is always a possible contender for the office, especially if he has served but one term.

A definite answer to the relation of Mr. Hoover to 1936, undoubtedly will be forthcoming until that year.

Scores New Deal.

Philadelphia, Sept. 4 (AP)—Herbert Hoover condemned the new deal to the name of liberalism.

The former president, writing in the current issue of the Saturday Evening Post, describes the foundation of "The American System" as individual liberty, and the base of "economic regimentation" as "the very theory that man is but the pawn of the state."

It is Mr. Hoover's first political pronouncement since he stepped out of the White House and Franklin Delano Roosevelt walked in.

"It is my hope," Mr. Hoover writes, "to show that to resume the path of liberty is not to go backward; it is to return to the path of progress from following the will of the wisps which lead either to the swamps of primitive greed or to political tyranny."

From the Pilgrims at Plymouth to the army in the Argentine, he says, Americans have died "that the human spirit might be free."

He continues:

"From these sacrifices and in the consummation of these liberties there grew a great philosophy of society—liberalism.

The high tenet of this philosophy is that liberty is an endowment from the creator to every individual man and woman upon which no power can encroach, and not even the government can deny."

"Under this philosophy and through this structure we have developed the principles and forms of our social, economic and governmental life—the American system."

"Greed," says the former president, is this system's constant foe, coming from "economic agencies" on one side and "bureaucracy" on the other.

"The first step of economic regimentation is a vast centralization of power in the executive. Powers once delegated are bound to be used, for one step drives to another.

"The whole thesis behind this program is the very theory that man is but the pawn of the state. It is a usurpation of the primary liberties of man by government.

"It is a vast shift from the American concept of human rights, which even a government may not infringe, to these social philosophies where men are wholly subjective to the state. It is a vast casualty to liberty if it shall be continued."

The Saturday Evening Post released a part of the article for publication, saying in its release:

"Although there is no mention of the White House incumbent by name, a direct of the staggering number of powers delegated to the Chief Executive is made, with the author frankly in disagreement both with the current administration policies and with the so-called American attitude of Congress in yielding virtually dictatorial powers to the President."

Negotiations Resumed.

Washington, Sept. 4 (AP)—After a break of ten days, Soviet-American negotiations for a settlement of the dispute over debts and claims were resumed at the state department this week.

Alexander Trancovsky, the Soviet ambassador, said today he expected a final effort to arrive at a settlement in the long-pending question.

Father and Son Drown In River Off Highland; Bodies Not Recovered

F. Gordon Busted and His 14 Year Old Son Drown in Hudson River—Father Loses Life Vainly Trying to Save Son.

Tragedy marked the closing hours of what had been a happy week-end cruise by a party of seven or eight up the Hudson on the pleasure yacht Alcedo, when F. Gordon Busted, 43, of Garrison, N. Y., and his son, Richard Gordon Busted, 14, were drowned about 500 feet from the Highland shore of the Hudson and opposite the estate of President Roosevelt at Hyde Park.

As reported the accident happened between 2 and 2:30 Monday afternoon, when Richard, who was walking on the narrow portion of the deck around the cabin, lost his balance and fell into the water as the yacht was rocked by the heavy swells caused by the up and down Day Line steamers which passed at this point.

The boy's father, who was at the wheel of the yacht, turned the wheel over to one of the other men, jumped into the small dory trailing behind the yacht and went to his son's rescue. Richard, who could swim but little, managed to get his hands on the boat, but just then the dory tipped as one of the heavy swells struck it and Mr. Busted also went into the water. Before the yacht could be brought around and stopped both father and son sank out of sight in 90 feet of water.

The mother, who had been a horrified witness of the death of her husband and son, was taken in a hysterical condition to Hyde Park and put under the care of a physician. Later she was taken to her home at Garrison.

Both Ulster and Dutchess county authorities were notified. Deputies Molyneux and Vredenburg from the sheriff's office and Sergeant Lockhart and Trooper Linn Baker and Deputy Peter Freer of Highland went but up to this afternoon the bodies had not been recovered.

Mr. Busted was a well known resident of Garrison, active in Republican politics and president of the Board of Education. The Alcedo, on which he and his wife and son, with others, had been a guest, is owned by Walter Gundlach, proprietor of a printing plant in Brooklyn. The party had been on a week-end cruise and were returning home after spending Sunday night at Saugerties.

Eastman Pleads Guilty To Reckless Driving

Judge Culliton Fines Youth \$15 and Suspends Driving License For Three Months—Injured Patrolman Still in Bed.

Frank Roger Eastman, 18, of Spring street, arrested Saturday afternoon on a charge of reckless driving after the Ford roadster he was driving struck the motorcycle ridden by Officer Wesley Cramer, at Broadway and St. James street, entered a plea of guilty to the charge when arraigned before Judge Culliton in police court this morning and was fined \$15 and his driving license suspended for three months. He paid the fine.

Officer Cramer is still confined to his bed as the result of shock and injuries received when hurled from his motorcycle, and will be unable to resume his duties for some time. An X-ray taken of the leg showed that no bones were broken, but that the leg is badly bruised. The ankle is also badly injured. He is under the care of Dr. Fred Snyder, police surgeon of the department.

Jesse Dunham of Murphy street, arrested Monday on a charge of public intoxication, had his hearing adjourned to Thursday.

Erwin Brandt of East Jewett, was arrested Monday on three charges: having no operator's license, no certificate of registration and passing to the left of a traffic standard. His case will be disposed of later.

Two Women Held Up Here Monday Night

The screams of two women shortly after 9 o'clock Monday evening attracted the attention of residents on Fair street, near Maiden Lane, and looking out of their windows they saw three young men attempting to hold up two women. The police were called and hurried to the scene, but the young men, frightened by the screams of the women, had disappeared. One woman had a red mark on her neck where one of the men had choked her. The names of the two women were not made public by the police.

New York, Sept. 4 (AP)—The kidnapping of a French seaman by an international gang of smugglers and his torture during a month of captivity were disclosed by federal investigators after twenty government agents, armed with submachine guns, had arrested two men and a woman.

The seaman, William Rosen, or Guillaume Rozen, identified one of the prisoners as the leader of the gang and the man in whose Brooklyn apartment he was held captive. He identified the man's wife as the woman who cooked for him during his imprisonment.

Investigators said Rosen, a seaman on the French line Champlain, was abducted because he threw a package into the sea, believing it to contain potash. Instead, it held narcotics valued at 40,000 francs (\$2,640).

The arrests were made in a raid early today on the apartment where Rosen said he was held captive. Those seized were identified as Salvatore Mancuso, 28; his wife, Nellie, 25, and Dominick Gelferno, 31, also of Brooklyn. Rosen was unable to identify Gelferno, agents said. All were charged with kidnapping and conspiracy.

Rosen, 35, short and slightly built, appeared at police headquarters with his wrists bruised by the ropes with which he had been tied by day and night and his forehead scarred by lighted cigarettes with which his captors had seared him.

Kidnaped on August 2, he was released yesterday. Federal men said they believed the gang became fearful of detection.

Rosen told the investigators he found the package concealed in a ventilator while the Champlain was on its way to New York. After the liner docked, he said, a man met him and told him a friend wanted to see him. Rosen got into the stranger's automobile and was carried off.

He was told that if he had thrown the narcotics overboard he would be killed, he said, so he told the kidnapers he had sold them. The gang forced him to cable his wife in an effort to raise the 40,000 francs he said.

These cables and others which Mancuso received proved the undoing of the abductors, agents said.

Mancuso had been arrested on August 5 after a chase in which narcotics agents fired shots. It was alleged he had sold narcotics for \$1,500 in a street corner deal. Cablegrams went in his pocket at that time and Mancuso refused to talk until they were destroyed, the officers said.

The cablegrams were torn up and the pieces thrown out a window, only to be collected by other agents outside the building.

A check was kept on cablegrams to and from the Mancuso address. Rosen's wife also communicated with French authorities when she received his messages and they notified the United States government.

William Miggins Of Sawkill Found Dead

Body Of Foreman of Town Roads Found in The Sawkill Creek—Autopsy Ordered by District Attorney Murray.

William Miggins of Sawkill, foreman on the town roads, was found dead this morning in the Sawkill creek near the Sawkill cemetery from an examination of the body he apparently was fatally injured when he fell down the bank which at that point is 15 or 20 feet high. At the point where the body was discovered by five boys returning home from school there is but an inch or two of water in the creek and death was not due to drowning. Wounds on the head indicated that Mr. Miggins had evidently fallen down the bank as there were injuries to his head which undoubtedly had been made by coming into contact with spikes on the bank. There was a laceration about two inches long on the head and blood was flowing from the mouth and nose, indicating a possibility of a fracture of the skull.

The body was discovered by Donald Hulsair, Warren Charlton, Daniel Carty, John Lewis and William Hulsair who had attended the opening of school and were on their way home. The body was on the upper side of the Sawkill bridge.

When the lads discovered the body they notified the sheriff's office and Deputy Sheriff Molyneux and Arthur Keator, assistant of Coroner Conner, went to the scene. Coroner Conner later went to the scene and took up the investigation. The matter was also reported to District Attorney Cleon B. Murray and an autopsy was ordered. The body was turned over to Undertaker James Murphy.

From what could be learned Miggins was seen Monday.

There was a ball game Monday afternoon and he was observed passing there and again later in the evening. About 2 o'clock this morning a neighbor reports that their dog barked for some time and it may have been at that time that the accident happened.

In the cemetery which is along the bank of the creek some fifteen or twenty feet above the creek Mr. Miggins' hat was found but the rain of this morning had obliterated any marks which might have been made to the bank of the creek. The spot where the hat was found is about 50 feet from the bank of the creek.

Two sons and a daughter survive.

Sinclair in the East To Visit Roosevelt

New York, Sept. 4 (AP)—Upton Sinclair, in the east to visit President Roosevelt today, said he would ask whether federal relief funds could be used to put into effect his plan to end poverty in California.

The author and Democratic nominee for governor of California said it was not his purpose to "make use of the President in the campaign, or hang onto his kite tail." He expressed willingness, however, to "work with the national administration to the limit."

No Propaganda Funds

Berlin, Sept. 4 (AP)—The flood of Nazi propaganda abroad is menaced by a serious drought because of lack of funds, it was said today in reliable quarters. It was reported that Hjalmar Schacht, minister of economics, has notified Paul Joseph Goebbels that in the future no public money will be available for propaganda in other nations.

STRUCK WITH GOLF BALL

ROBBINS LOSES AN EYE

Donald W. Robbins was struck in the eye Saturday afternoon by a driven golf ball at the Wiltwyck Golf Club course and as a result of the injuries sustained the eye was later removed by Dr. Wilson at the Kingston Hospital. Mr. Robbins, who is employed as a salesman for the U. S. Rubber Company, was at the golf course with Tom Goodman, manager, when another player drove off from Number One tee. The sliced ball struck Robbins in the eye and then bounded off and struck Mr. Goodman on the jaw. They were standing about 75 feet from the Number One tee.

Union Leaders Hail First Big Day of Strike But Full Effect Over U. S. is Undetermined

Fuller Strike Gains Strength, Strikers Say in Face of Denials

Federal Conciliator Arranges for Conference To Be Held On Wednesday Between Pressers and Fuller Factory Officials—Picketing, Despite Rain, Is Still In Progress—New Employees Are Put To Work Today.

A new note was injected into the strike of the pressers at the Fuller Shirt Factory with the arrival of Miss Weinstein, a conciliator from the U. S. Department of Labor, who has arranged to hold a round table conference between representatives of the strikers and officials of the plant on Wednesday afternoon. This conference is being staged in the hope that all difficulties may be ironed out.

Miss Weinstein arrived in Kingston late last week and after talking with representatives of the strikers and also with representatives of the factory, arranged to hold the conference.

Although rain fell throughout the morning hours today, the picket line was again on duty in front of the factory on Pine Grove avenue, in charge of Miss Griselda Kuhlman, organizer, and her assistant, Miss Frieda Schwenkmeier. "Rain or shine we picket," said Miss Kuhlman.

What the result of the conference with the Federal conciliator will be is not known at this time. Last week M. J. Rucan, mediator of the Bureau of Mediation and Arbitration of the State Labor Department, was in Kingston, and held conferences with both the strikers and the representatives of the Fuller plant, but without result as far as settling the strike was concerned.

While the strikers were busy picketing the factory this morning a number of new employees were placed at work in the plant where work appears to be progressing as usual.

The labor organizers claim that the strike is gaining in strength, which is denied by the representatives of the plant.

Sergeant Charles Phinney was in charge of the detail of police on duty at the plant this morning.

Miss Kuhlman when asked about the conference stated it had been arranged. She said the strikers were ready to settle if they could come to any reasonable agreement with the firm; otherwise we are ready to continue to strike with greater strength than ever, she said.

Two Cohoes Mills Shut Down Today

Cohoes, N. Y., Sept. 4 (AP)—Two Cohoes mills were completely shut down today, and pickets surrounded six others as about 400 of the city's 2,500 textile workers joined the nation wide strike called by the United Textile Workers of America.

No violence was reported. Approximately 175 workers scattered through the remaining six mills answered the strike call this morning.

William J. Carney, superintendent of the Full and Hatch Mill, reported that he had many applications for jobs from workers.

All police leaves and vacations were cancelled, and all police were on duty at 7 a. m. this morning.

No definite action had been taken by textile workers in Albany, Rensselaer, Troy and other cities near Cohoes. At Utica, where about 2,500 persons are employed in textile mills, organizers for the United Textile Workers were contemplating their plans for a walkout but the number actually taking part in the strike was not available.

At Hornell, the skeleton staff of 30 employees maintained at the silk company quietly joined the strike. The management announced the mill would be closed until "further notice."

Employees of two other Hornell silk mills, the Dewitt Boag Company and the Merrill Hosiery Company, are not organized and will remain at work.

Evangeline Booth Now Salvation Army Head

London, Sept. 4 (AP)—The Salvation Army will go on with another Booth at the head of its far-flung enterprises.

Evangeline Booth, 63, daughter of the founder of the organization, was elected the army's commander-in-chief yesterday by the 47 delegates from 22 nations who constitute the high council.

Her selection meant that the high command of the army had reverted to the Booths after five years. In the interim General Edward J. Higgins, who resigned recently, ruled the army.

It is predicted that the army under its first woman commander will cling closely to the principles laid down by General William Booth when he founded the religious and social service enterprise in 1845.

"I didn't expect to be elected general when I left New York," she said.

She will return to the United States, but plans to come back to the world headquarters here. Evangeline Booth has been leader of the Salvation Army in the United States since 1928.

Car Turned Over On the Boulevard

Monday afternoon a Stud-baker sedan owned by Edward Barton of 12 O'Neil street, and driven by John C. Reed of Albany arena extension, ran off the shoulder of the road on the Boulevard and in trying to get back onto the pavement the car turned over. Police headquarters was asked to send the ambulance, but when it reached the upset car those in the car refused to go to the hospital. Besides Reed and Barton two women whose names were not ascertained, were riding in the car.

Van Horn Says "Failure"

New York, Sept. 4 (AP)—Peter Van Horn, president of the Cotton Textile Institute, today said that on the basis of telegrams it was evident "the majority of New England workers are not in sympathy with the strike movement and intend to remain by their jobs."

Estimate Based On Telegrams

Sloan made public the following estimate based on telegrams he had received from mills in New England: In Rhode Island, with 21,000 workers, the only mill reported closed is the Remond Cotton Mill at Edmond, where 10,000 workers are employed.

Massachusetts, 33,000 workers, estimated 20,000 on strike, almost all of which are in New Bedford. In Fall River, three cotton printing mills did not open.

Manchester, N. H., the Amesbury Manufacturing Company, employing 5,000, did not attempt to open.

Sloan said he estimated on the basis of telegraphic reports that 120,000 were working in the south today, and that 21,000 were idle.

In Mid-West.

Chicago, Sept. 4 (AP)—A strike of 10,000 cotton goods garment workers in St. Louis and 2,000 more in Kansas City has been ordered by Daniel Dubinsky, president of the International Ladies Garment Workers' Union, and was expected to begin momentarily.

New Englanders Slower To Join General Surge With About 50,000 Idle

Carolinas, However, Appear Split in Half, With 229 Mills Closed and 81,780 Persons Not Working.

SLOAN ESTIMATE

Official Claims Silk, Rayon, etc., Are Not Affected, Particularly in the South.

(By The Associated Press.)

The first big day of the general textile strike was hailed by union leaders today as a "tremendous success," while employers declared that a poll of the industry in New England indicated the majority of workers were opposed to the strike.

In New England where the mills were closed yesterday because of the Labor Day holiday, mills employing an aggregate of 125,000, it was reported that at least 50,000 were idle.

In the great textile centers of the Carolinas a survey indicated that approximately 50,000 were idle and the same number working.

In the dozen or more other textile states affected by the strike indications were that at least half of the workers were idle.

The most disorder reported in the strike today was at Marion, Ga., where fist fights were numerous, there were several arrests and many threats of warrants. One automobile load of mill office workers was overturned when it encountered a picket line.

Full Effect Not Determined

The full effect of the strike on the 650,000 workers actually at work when the strike was called remained to be determined.

A strike of 10,000 cotton goods garment workers in St. Louis and 5,000 more in Kansas City ordered by the International Ladies Garment Workers' Union was expected to begin momentarily.

In Paterson, N. J., union leaders said they expected the Paterson labor relations board to rule that they might call out 15,000 of the 30,000 silk workers in the Paterson area by nightfall.

In the Carolinas.

Charlotte, N. C., Sept. 4 (AP)—The general strike this morning appeared to have spread to slightly more than 50 per cent of the Carolinas' cotton textile industry.

A survey revealed the following approximate figures:

Workers idle—81,780.

Workers on jobs—79,000 (approximate).

Mills closed—229.

Mills running with skeleton forces—20.

Mills operating practically at normal or normally—299.

Sloan's Estimate

New York, Sept. 4 (AP)—George A. Sloan, president of the Cotton Textile Institute, today said that on the basis of telegrams it was evident "the majority of New England workers are not in sympathy with the strike movement and intend to remain by their jobs."

Sloan said he heard from mills

Sloan said he heard from mills employing 125,000 of the 150,000 New England textile workers. Of this number, mills employing 100,000 were open and running full time, Sloan said.

He added only 25,000 employees of mills heard from are out on strike. These mills are located in New Bedford, Mass., where eighteen are shut down and only three operating. Sloan said the messages informed him.

"In the first day of a strike which reflects the attitude of the workers," Sloan said, "figures to us indicate that the majority of New England workers are not in sympathy with the strike movement and intend to remain by their jobs."

Estimate Based On Telegrams

Sloan made public the following estimate based on telegrams he had received from mills in New England: In Rhode Island, with 21,000 workers, the only mill reported closed is the Remond Cotton Mill at Edmond, where 10,000 workers are employed.

Canton, Ill.—Miss Frances Dikeman, 25, school teacher, has been in the cold storage plant of the Central Illinois Public Service Company since last Friday. Her physician ordered this treatment to prevent her death from asthma. Her condition is reported to have improved.

It's An Ill Wind etc.
York, Neb.—Now that the drouth in Nebraska has passed, people are deciding it had its benefits, after all. Hay fever sufferers say they have not been affected so severely this year, and believe the drouth had an important part in relieving them.

Too Many Owners
Miami, Fla.—Sweeping Light, a race horse, has four owners. Three of them, J. S. Carlson and Alex Carlson of Hempstead, Ill., and M. Lacey of New York, filed suit against the fourth, Mrs. Frances R. Read, asking sale of the horse and division of returns.

They claim multiple ownership is not "feasible or practicable."

YOUTH COUNCIL DELEGATES WILL NOT GO HUNGRY

Mrs. D. N. Secore, who has done such a splendid job in furnishing the meals for the first two Congresses of the local Youth Council, will again be on hand this year at the Kingston "Y" Camp on Friday, Saturday and Sunday, September 14, 15 and 16, and see the delegates do not go hungry. Those who have attended a Congress, remember well, the fine and generous portions they have had, and undoubtedly anticipate attending this third Congress.

Included in the regular meals of the Congress will be an innovation in the form of a "Century of Progress" banquet on Saturday evening. The banquet which is also to be prepared under Mrs. Secore's direction promises to be a gala affair. Besides the splendid food planned, a regular banquet program, bringing in all the latest banquet novelties, is being arranged, and an excellent after-dinner speaker is being secured. Directly at the close of the banquet will be held an entertainment, under the direction of Miss Eleanor Lawatsch, and this is to be followed by a social hour.

Young people who are unable to attend the entire Congress, but who would like to attend the "Century of Progress" banquet are invited, and must make their registrations by Thursday, September 13.

Those intending to register for the entire Congress are requested to file their registration blanks immediately with Miss Marion Coutant at 101 Roosevelt avenue, or at the Y. W. C. A. and Y. M. C. A. offices.

OLIVE BRIDGE.
Olive Bridge, Sept. 4.—The regular meeting of the Ladies' Aid Society will be held at the home of Mrs. Dorville Boire on Wednesday afternoon, September 5.

The Olive Bridge baseball team played the Huron Indians at the latter's field at Rosendale on Sunday. The score was 5 to 3 in favor of the Hurons. The local boys will play the Stone Ridge nine on Monday.

Mr. and Mrs. George H. Smith of Hoboken visited at William Davis' on Sunday.

The Watson Hollow Inn at West Shokan catered to about 75 guests on Sunday. The inn is filled to capacity with steady guests and several parties had to be turned away on Saturday night.

Robert Ely of Detroit is spending a few days with his mother, Mrs. Myron Teller, at Watson Hollow Inn. Laura Davis returned home on Monday evening. She expects to enter high school on Wednesday.

A number from this place attended the clambake at Brown's Station on Saturday. About 35 people attended.

Origin of Term "Teasting"
The Anglo-Saxon custom of drinking healths has been, since the eighteenth century, termed "teasting." In the latter the word is connected with the toast put into ale cups. This is probably correct, says the author of an old English work on ale and beer, though Wedgewood considers "teast" a corruption of "steas an," knock (clashes), a German drinker's cry.

PORT EWEN

Port Ewen, Sept. 4.—Mrs. Harry Lincoln and son, Ernest of Port Ewen and Mrs. Charles R. Lincoln of Port Ewen have returned to their homes after spending some time with Mrs. Lincoln's mother at North Troy.

The regular meeting of the Ladies' Aid Society of the Reformed Church will be held at 8 o'clock Wednesday afternoon at the home of Mrs. Wallace Miller on Green street.

Mrs. Charles Nicholson and daughter, Julia, of Jamaica, L. I., spent the Labor Day weekend with Mrs. Nicholson's daughter Mrs. Philip O'Reilly, and family.

Clara, June, Roy, Elsie, and Jack Short are in a motor trip to the Thousand Islands.

The Ladies' Aid Society of the Methodist Church will meet at the home of Mrs. H. H. Short, 100 N. 3rd St., September 5. A pot luck dinner will be served at noon.

A Sunday school board meeting will be held at 8 o'clock Thursday evening at the home of Mrs. H. H. Short on Salem street.

Mr. and Mrs. A. H. Short, daughter, Elaine, and Mr. and Mrs. A. W. Short and children, Betty Anne and Sonny, have returned to their homes after spending several days at Camp "Two Brooks" in Ideal Park.

Angus Terpinine and grandson, Raymond Winterbach, of Jamaica, L. I., spent the week-end with Mr. and Mrs. Sylvanus Van Aken.

Mrs. Edward Trinkle and family were recent visitors of relatives in South Rondout.

The Misses Lillian Lapine and Eunice Short, who with several other girls have been camping at Williams Lake for a week, have returned to their homes here.

MILK is not a cure-all

BUT IT'S THE GREATEST PROTECTIVE FOOD YET DISCOVERED

REMEMBER the spiel of the medicine barker—how his dollar bottle was good for almost any disease? Suppose that, instead of listening to the medicine barker, you consulted the foremost food-scientists in America. What they said would be really convincing, wouldn't it? They would tell you that the milk you drink does more good in fighting fatigue and preventing disease than anything else you can buy.

Practically any physician will in-

form you that milk supplies almost every food-element your body needs to keep healthy. The power of milk to mend is so universally recognized that it is a part of the diet in treating almost every disease. Because of this, perhaps, many people have overlooked its tremendous preventive value.

Milk helps you keep well by increasing your resistance. It builds up your defenses against germs and sickness. Milk actually helps

lengthen life. No stronger evidence can be advanced than the fact that milk-drinking races live the longest.

It's so easy to get the benefits of milk. Just form the habit of drinking two glasses daily. Milk is not fattening—its caloric content is relatively low. Give milk a month's trial. See if you don't notice a big difference in the way you feel. And we need not remind you that each of your children should have a full quart daily. Begin tomorrow to—

Coal Dealers Face NRA With Defiance

WASHINGTON, Sept. 4 (AP)—NRA threatened a threat of mass demonstration against the nation's coal dealers today.

The threat that resulted in resignations of the solid retail fuel code, which would have the effect of keeping the cost of keeping the winter is to be determined.

NRA code now provides for a minimum price for coal, but some do have the opinion that if minimum price was set, it would be an emergency in a particular area can be declared. The minimum price is then determined on the basis of "lowest reasonable price."

An emergency has been declared in several areas and the question is whether the minimum price is to be set within trade areas, or in untraded areas.

NRA's Johnson two months ago offered proposed prices referred first to NRA before becoming effective. The resulting code authority wrote that the code "as now emasculated by NRA" was "a futile thing."

Assuming \$6,000 dealers were affected, the complainants said in their letter of resignation last night: "The last hope for effective relief has just been destroyed by the announcement that the provisions of this code may be modified at will by NRA without prior notice to or consent of the industry."

NRA officials had been prompted by numerous complaints in areas where minimum prices had been set up. The said the prices had been fixed without considering a sufficient number of firms, and that both dealers and consumers had complained that charges were too high.

Members of the code authority included Frederick Stephens of New York, chairman.

Trifling Colds May Have Caused Deaths

Albany, N. Y., Sept. 4 (AP)—Trifling colds might have caused the deaths of some or all of the eleven who died at the State School for Mental Defectives at Wassau, Dr. Frederick W. Parsons, Commissioner of Mental Hygiene said today.

Dr. Parsons expressed this opinion while the state and Dutchess county authorities pushed an investigation into the deaths.

Dr. Parsons said the State Health Department's report on the analysis of the boys' stomachs had not yet been received.

The physical condition of many of the children in this institution, of this sort, makes it possible for death to occur suddenly and from causes not immediately recognized," the commissioner said. "It may be that these children had trifling colds that would not be recognized in the autopsy. The respiratory, circulatory and digestive systems of such children are below normal."

Dr. Parsons said that failure of the State Health Laboratory to find immediately any unusual condition in the digestive organs encouraged the Department of Mental Hygiene to believe that the deaths were from "natural causes."

PODERJAY EXTRADITION PROCEEDINGS BEGUN

Vienna, Sept. 4 (AP)—Vincent R. Impellitteri, assistant district attorney of New York, arrived today and began proceedings for the extradition of Ivan Poderjaj, Yugoslav subject, on a charge of perjury in connection with his marriage to and the subsequent disappearance of Agnes Tufverson, a New York attorney.

No obstacles to the extradition were expected.

The Vienna police announced that Suzanne Ferrand, who has been living in Vienna as Poderjaj's wife, will be released from prison since authorities have found no evidence to connect her with the Tufverson case.

Miss Tufverson was married to Poderjaj in New York last December and her family, which instituted the proceedings against Poderjaj, claims it has not heard from her directly since then.

Why City Did Not Get Convention

One of the big factors why Kingston did not get the 1935 American Legion convention at the conference held in Buffalo last week was that the Convention Committee did not believe that Kingston had facilities for handling it. The time and place committee of the convention wanted a city that could furnish at least 2,600 hotel rooms. Kingston has only 675 hotel rooms, according to information furnished the local delegation.

During the three days that the convention was in session in Buffalo there were 7,000 people, both delegates and their families, to house and feed, and Buffalo with a population of 600,000 had all of its facilities taxed to the utmost to take care of the convention attendance. It was one of the biggest conventions ever held by the state Legion. All of the hotels were filled to overflowing, and boarding houses had to be called on for assistance in taking care of the attendance.

It was apparent that the delegates at the convention were desirous of holding a convention in the Hudson river valley, but the big question raised was "Can Kingston take care of the convention?" The task that would have confronted Kingston was apparent as they saw the throngs that had to be housed and fed. In addition to the delegates the convention has to have accommodations for 1,500 members of the drum corps and bands.

The great majority of delegates who had families brought the members of their families with them to the convention, and as a result there were many children in Buffalo with their parents.

To accommodate an attendance of 7,000 people it would mean that not only the Kingston hotels would be unable to take care of them, but that there are not enough private homes in the city, willing to take in delegates, to take care of the convention.

NRA officials had been prompted by numerous complaints in areas where minimum prices had been set up. The said the prices had been fixed without considering a sufficient number of firms, and that both dealers and consumers had complained that charges were too high.

Union Leaders Hail First Day of Strike

(Continued from Page One)

Horn, chairman of the silk code authority, said today that a survey of the textile strike as applied to silk, rayon and synthetic fabric industries showed the strike was "almost a complete failure."

Von Horn said that the "entire south is operating normally," and said that the survey did not show "a single mill shut down in that district."

Reports from New Jersey, he said, disclosed that the strike was a "complete failure," with all mills under operation.

No mills were shut down in New York state, he said, while the survey in Pennsylvania showed less than five per cent of the workers responded to the strike call.

Van Horn said that the trouble in Pennsylvania, which constitutes about one-half of the entire industry, up until noon was limited to three out of the state's 400 mills.

In New England, he said he learned, approximately 10 per cent of the operations were down.

Gorman is Pleased
Washington, Sept. 4 (AP)—Francis J. Gorman, chairman of the strike committee of United Textile workers, said today the general textile walkout "is a tremendous success."

Gorman disputed claims of mill owners that the walkout was failing to reach serious proportions, and asserted "the workers are leaving the mills by the thousands."

He said he expected a tabulation early in the day would show the exact number on strike and added "the response in the south has exceeded our expectations."

SOCIALISTS ASK UNIONS FOR THEIR COOPERATION
Milwaukee, Wis., Sept. 4 (AP)—Trade Unionists were urged by Socialists today to withhold cooperation with the government in the deportation of alien communists.

The appeal came from the Socialist party's national executive committee which, in a statement addressed to trade unionists said that such cooperation would mean "torture and in some cases, death for the deported."

At the same time the committee declined a communist invitation to negotiate jointly for a united front against war and Fascism.

California.

Secretary sought the conference and
the Summer White House again re-
ported today it would be confined to
economics, probably the new deal
relation to California.

Mr. Roosevelt had a busy day of
business, principally economics with
such callers as Joseph Kennedy,
chairman of the Federal Stock Ex-
change Commission, and J. J. Peley,
president of the New York, New
Haven and Hartford Railroad. Also,
on the list was A. A. Berle, friend
of the President and now associated
with Mayor La Guardia of New
York.

President Roosevelt has repeatedly
stated this campaign year that he
is taking no part in the various state
contests and this was emphasized in
the case of Mr. Sinclair.

Reports from California tell of a
political realignment out there fol-
lowing the intense primary resulting
in Sinclair's nomination. It is said
that Mr. Roosevelt is keeping hands
off. He has looked beyond party
lines in the speeches he has made last
summer.

Sinclair is on the day's list for
late in the afternoon.

George Peek, special assistant on
foreign trade, left last night after
giving a detailed report on the op-
portunities in exports and imports
during the coming months.

Harry L. Hopkins, federal relief
administrator, turned Washington
ward with the word that the relief
agency is not an instrument of
sifters. He said starvation will be
prevented, if possible, but in re-
sponse to inquiry asserted that the
F. E. R. A. is not going "to under-
write the textile or other strikes."

Reid Guy Tugwell, under secre-
tary of agriculture, also left for
Washington.

The President enjoyed as much as
possible of the Labor Day week-end
holiday, participating yesterday in a
picnic luncheon.

PHOENICIA.

Phoenicia, Sept. 4.—Mrs. Anna
Fleming Carr has been visiting her
son, Mrs. Mary McGrath. Mr. Carr
came for the week-end.

Mrs. C. Peck has returned home
from the hospital.

Mr. and Mrs. Adrian Loomis spent
Sunday afternoon in Hobart.

O. Hill spent a few days with his
daughter, Mrs. R. Draffin in Grand
Sage.

Mr. and Mrs. Winfield Baldwin and
family of Wappinger Falls were call-
ers, and Mrs. George Baldwin's
son, Mr. George Baldwin.

Mr. and Mrs. Lauren Hesley of
West Shokan were callers at H.
Boice's Sunday.

Miss Harriet Loomis drove to
Kingston Tuesday and was accom-
panied by L. Boice, Mrs. George
Baldwin and A. P. Loomis.

Mrs. Walter Smith has recovered
enough to leave the hospital and re-
turn to her home.

Survivors are lining out the T. J.
McGrath estate in the vicinity of High
street.

The little son of Mr. and Mrs. W.
Egger was quite ill but is getting
along all right now.

Mr. Tremper, principal of the
school being still in the hospital at
New Jersey, Miss Mary Gormley will
substitute for him at the opening of
school.

ST. REMY

St. Remy, Sept. 4.—The flower
show will take place in the church
Wednesday afternoon and evening
and promises to be a fine affair. A
cafeteria supper will be served from
6 o'clock until all are served. Ice
cream will be on sale.

The Ladies' Aid and Missionary
Society will meet in the Sunday
school room Thursday, September 6,
at 2:30 p. m. New members and
visitors always are welcome.

Mr. and Mrs. Ellsworth Roosa and
son, Arthur, of Elmsford were week-
end guests of the Ellsworth family.

Mr. and Mrs. Alfred Van Aken of
New Haven visited Mrs. Lorenzo
Terpening and family last week.

Mrs. Tracy Van Vliet last week.

Mr. and Mrs. Walter Kuhaupt were
week-end guests of the Hoffman fam-
ily.

Mrs. Lizzie Rickard visited her
sister, Mrs. Ada Kuhaupt, on Sun-
day.

Mrs. Frank Filziccons of Bridge-
port, Conn., is the guest of Mr. and
Mrs. D. Carney.

The Community Club will meet at
the church Thursday night, Septem-
ber 14.

The city people are returning to
their homes after Labor Day.

Viewed Legion Parade

Mr. and Mrs. John Donovan of
142 West O'Reilly street have re-
turned home after spending a 10-day
vacation visiting their son, Floyd
J. Donovan, and his wife and daugh-
ter in Buffalo, N. Y. During their
stay they visited points of interest in
Canada and Niagara Falls and had
the pleasure of seeing the American
Legion parade and had many words
of praise for the showing the King-
ston boys made in parade and were
of the opinion that the comedy band
composed of six of the Kingston boys
was one of the highlights of the
parade.

trowski, Harold Shumaker and
DeGraf.

Wednesday at 7:30 p. m., the
"CCRC" will hold its regular meet-
ing in the clubhouse at Hillsworth
Park. This meeting promises to be
an excellent one featuring a visit
from station operators of Catskill,
N. Y., who plan to become affiliated
with the "CCRC."

SHANDAKEN

Shandaken, Sept. 4.—Dr. and Mrs.
H. C. Ackley of Schenectady were
guests of Mr. and Mrs. C. E. Wood
at the Sprucewood on Wednesday.

Mr. and Mrs. C. E. Butler of Jer-
sey City were guests of Mr. and Mrs.
C. E. Wood over the week-end en-
route for home after touring to
Great Barrington, Mass., thence to
Boston and up through New Hamp-
shire to Quebec and Montreal.
Canada. Mr. Butler is employed by
the Bell Telephone Company of New
Jersey, and Mrs. Butler is a daugh-
ter of Mrs. C. E. Wood. They re-
ported a very pleasurable trip.

The following were guests at the
Sprucewood over the week-end: W.
Kent Gilbert, Mr. and Mrs. David M.
Gilbert of Harrisburg, Pa., Mrs. G.
E. Youmans and J. M. Youmans,
Swarthmore, Pa., Miss Mary Laura
Sprout, Chester, Pa., and George F.
Wittall and wife of New Dorp, S. I.

The many friends of Mrs. F. M.
Cleveland, who was taken to the
Benedictine Hospital on August 26,
are hoping that she may have a
speedy recovery and return home
much improved in health. The last
report was she was doing well under
the care of Dr. O'Connor.

Davis, Speed Ace, Dies in Trophy Race

With Two Major Aviation Triumphs
to His Credit and a Third Within
His Grasp, Douglas Davis Crashes
to His Death.

Cleveland, Sept. 4 (AP)—Death
caught up with one of America's
most famous airplane pilots late yes-
terday as 1934's National Air Races
roared to a close before nearly 100,
000 persons.

With two major aviation triumphs
to his credit in four days and a third,
almost within his grasp, Douglas
Davis, Atlanta, Ga., veteran of a mil-
lion miles in the air, crashed to
death in the final racing event of this
year's program.

Davis was on the eighth lap of the
12-lap, 100-mile Thompson Trophy
Race and was leading the field by an
eight-mile margin when the wreck
occurred. His plane was traveling
about 250 miles an hour when it shot
out of control, twisted crazily
through the air and plunged its nose
into the ground.

Uninterrupted by the hand of
death, the race went on to a finish,
with first place honors going to Ros-
coe Turner of Hollywood, Cal., at a
speed of 248.129 miles an hour. He
received the coveted Thompson tro-
phy and a \$4,500 cash award.

Davis won the Benedict Trophy
Race in a dash here from Burbank,
Cal., last Friday and only a few
hours before his death attained his
second triumph of this year's races
by exceeding the world's land plane
speed record of 294.98 miles an
hour.

He is survived by a widow and two
children, Douglas, Jr., 6, and Dar-
lene, 4.

NEED MORE ENERGY?

Get a **LIFT** with a Camel!

FROM LONG KEY TO NOVA SCOTIA, the famous sportsman and writer, REX BEACH, has matched his skill and vitality against the big game fish of the Atlantic! Below he tells how he lights a Camel after fighting it out with a heavy fish—and soon "feels as good as new!"

REX BEACH TELLS YOU how to get back vim and energy when "Played Out!"

TOBACCO EXPERTS ALL SAY:

"Camels are made from finer, more expensive tobacco—Turkish & Domestic—than any other popular brand."

"I have taken my share of big sailfish, marlin, and tuna," says Rex Beach, sportsman and noted writer. "I know what a rod-and-reel contest with these heavy fighters does to a man's vitality. When I've gotten a big fellow safely landed my next move is to light a Camel, and I feel as good as new. A Camel quickly gives me a sense of well-being and renewed energy."

"As a steady smoker, I have also learned that Camels do not interfere with healthy nerves."

Thousands of smokers will recognize from their own experience just what Mr. Beach means when he says that he lights a Camel when tired and "feels as good as new." And science adds confirmation of this refreshing "energizing effect."

That's why you hear people say so often: "Get a lift with a Camel." Camels aren't flat or "sweetish." Their flavor never disappoints. You can smoke just as many Camels as you want—their finer, MORE EXPENSIVE TOBACCO does not get on the nerves!

PHONE OPERATOR. Miss Marion Erickson says: "I smoke a lot. Since I changed to Camels, I find I never have to think about nerves. And Camels are so mild and taste so good, too!"

SALESMAN. Kenneth B. Logan says: "I smoke most of the time—but I smoke only Camels, and I'll tell you why. I say 'only Camels'! Camels don't upset my nerves—and no cigarette can match Camels on flavor, either."

Camel's Costlier Tobaccos never get on your Nerves!

Fashions By Barbara Bell

An Afternoon Dress For the Older Woman

A charming welcome awaits the woman who embraces a front closing with simple inclinations, and behind the simple revers of which may be revealed the unwanted yards of frequently accumulated by women who are no longer young.

The designer of the dress in the sketch has relied wholeheartedly upon the diplomatic treatment usually accorded the matronly figure of guest and clever cutting. The dress, fundamentally, is conservative. The style is at normal—the skirt slim and plain. All trimming interest has been kept where it belongs—that is, toward the top of the figure, the waistline being to flatter the face and take attention away from the lower part of the body, with only in rare instances, can there being high-lighted after one has taken on extra weight.

Other points which are of interest, solely because of their merit from a practical standpoint, are the deep darts over the busts, and the set-in sleeves. The latter are comfortably made, and the additional trimming pieces are placed at a point where they will do what is right for the silhouette in general.

Fortunately, for the older woman, the season is a black one—that is, for afternoon dresses. It is generally relieved by light contrast, near-wide and simple. A simple, square lap, at their smartest, in combination with plain Canton crepe, or those pebbly silk weaves that look so well on large people because of their dull, nonreflecting surfaces. Rayons are mixed with wool, this season, to the mutual advantage of both. Plain wools are seen made up with satin, and in cases where money is no object, fine lame (soft pliable and unstrained) is used effectively.

Don't Blame Your Butcher for higher prices

Let's be fair about this business of rising meat prices.

It is not sporting, it is un-American, to lay the responsibility, thoughtlessly, where it does not belong.

Your butcher is not to blame. The packer behind him is not to blame. The rising price of meat products is a direct result of the government's efforts to bring relief to the farmer.

We are not criticizing this effort. We believe it to be wholly patriotic, and aimed to benefit the whole country. If the farmer's purchasing power can be raised, through better prices for his livestock and other farm products, all industry is benefited, and hundreds of thousands of unemployed put back to work.

Please note these two facts:

1. Three months ago the packers were paying \$3.60 per hundred pounds for choice hogs at the Chicago market, plus \$2.25 federal processing tax. Today, with the government's program of farm relief in effect, the packer is paying \$8.00 per hundred pounds for choice hogs at Chicago plus the \$2.25 tax—almost twice as much as three months ago.
2. The fresh pork used by First Prize in making its sausage products has advanced 10c a pound in the last ten weeks, an increase due solely to governmental activity on behalf of the farmer.

But—in spite of this extraordinary increase, we have not advanced our price to your butcher, nor has he advanced his price to you, anywhere near that amount.

Your butcher hesitates to raise a price. He stalls it off as long as possible. As does the meat packer, he tries to absorb some of the rise himself—to keep your good will.

So we say, don't put the blame on him. Don't think he is out to rob you. Your interest is his. He wants your good will today, and later—when conditions are better all around. He will continue to do all he can to keep it. It is his greatest asset, and he knows it.

First Prize Sausage Products are extremely reasonable at present prices. Every pound is a full pound of meat with no bone or waste. Don't overlook the economy in buying First Prize Sausage Products.

Further your government's plan for recovery by keeping meat in your menu as regularly as your means will allow.

Tom Mooney Not to Go To Mother's Funeral

San Francisco, Sept. 4 (AP)—Tom Mooney will have the "freedom" of the prison during his period of mourning for the death of his mother, Mrs. Mary Mooney, but he will not be permitted to attend her funeral, Warden James B. Holohan of San Quentin said today.

The gray haired convict, serving a life sentence for the 1916 San Francisco preparedness day bombing, will be restricted in his movements only by the prison walls until his mother is buried, Warden Holohan said.

The funeral for the 86-year-old mother, who until the day of her death Sunday was active in a campaign for her son's freedom, will be a "working class public" ceremony, the Mooney Molders Defense Committee here announced. The date was set tentatively for some time next week.

Market for Fruits And Vegetables

New York, Sept. 4 (AP).—The market for fruits and vegetables was generally steady today. Apples, pears, peaches, plums, cherries, grapes, and berries were all in good supply. Potatoes, onions, and other vegetables were also available in quantity. The market for produce was active, with many buyers and sellers engaged in transactions. Prices were generally stable, with some fluctuations in the price of certain items like apples and pears.

New York State Fair. The fair was held today at the State Fair grounds. The fair was a great success, with many visitors and a large number of exhibits. The fair was held in the afternoon, and the weather was very pleasant. The fair was a great day for the fairgoers, and the fair was a great success.

The market ruled steady to firm on cauliflower, especially for fine quality. Cauliflower, Mountain, shipments sold at 1.75-2.25, occasionally as high as 2.50 per crate, while the No. 1 stock from the Adirondack Mountains changed hands at 1.50-2.00. Western New York Alexander apples, N. Y. 1st S. Grade No. 1, 2 1/2 to 3 1/2 inch, brought 1.00-1.12 1/2 per bushel basket or tub.

Right to Vote. The United States of America does not guarantee to its citizens the right to vote, writes G. R. Turner in the Kansas City Times. The decision as to who may enjoy this privilege is reserved to the individual states. The Constitution merely provides that it shall discriminate because of race, religion or sex. It is for this reason that there exists the occasional inconsistency of a person being a citizen of the United States, for although a state cannot make an alien a citizen of the United States, it may confer on him all the privileges that it confers on its own citizens.

Right to Vote. The United States of America does not guarantee to its citizens the right to vote, writes G. R. Turner in the Kansas City Times. The decision as to who may enjoy this privilege is reserved to the individual states. The Constitution merely provides that it shall discriminate because of race, religion or sex. It is for this reason that there exists the occasional inconsistency of a person being a citizen of the United States, for although a state cannot make an alien a citizen of the United States, it may confer on him all the privileges that it confers on its own citizens.

**AD-SHOPPING MAKES YOUR
BUYING DOLLAR GO MUCH
FARTHER!**

Ever play the game of ad-shopping? It's a great pastime and a grand time-and-money saver. Just make a list of what you want and need. Then check your list against the things you see advertised in the Daily Freeman. Compare prices to your heart's content. Make note of anything you see advertised that you may have overlooked in planning your shopping list. Now you're ready to go—without wasting the day tramping endlessly from one store to another. You'll come home fresh as a daisy.

Oh, but wait! Just add up the prices of the advertised items you are going to buy. Good deal less than you thought it would be, isn't it? That's what puts the biggest thrill in ad-shopping! You usually have enough money left over to buy something extra-nice and personal for yourself!

**KEEP POSTED ON WAYS
TO BETTER LIVING WITH THE ADVER-
TISEMENTS IN**

The DAILY FREEMAN

NOT so many years ago the round, red fruit of a certain vine was called a "love-apple." A man in his right mind would no more eat it than he would go out and munch a toadstool. It was supposed to kill you at the very first bite! Then some hardy soul decided to "bite and see!" And so the delicious tomato was introduced to a hungry world.

But news of the new tomato traveled very slowly. Your children might not be keeping healthy with it today if a grocer somewhere in an old-fashioned town hadn't been "stuck" with a bushel or two. Faced with a loss if they rotted, he threw discretion to the winds and ran an ad in the paper.

"TOMATOES FOR SALE. This fine new fruit said to be excellent for the health and complexion. I have a choice few. Fifteen cents apiece."

Mr. Grocer sold the lot, ordered more, sold those and presently was able to cut his price in half and then some while babies waxed fat on tomato juice.

CONVENIENCES GRANDMA NEVER DREAMED OF

As with tomatoes, so with vacuum cleaners, safety razors, oil burners and the latest hat from Paris. The merchants who advertise them to you have no burning desire to make this world a healthier, smarter, more leisurely place to live in. They want to sell vacuum cleaners, safety razors, oil burners and lovely hats—and advertising is the best way to do it. But their advertising has told you about a lot of things you'd hate to be without today. Their advertising has introduced you to comforts and conveniences your grandmother never even dreamed of! And—because all wise buyers read advertising—Mr. Merchant sells more advertised goods and can keep on lowering the price to you.

Reads like a romance, doesn't it? But you can prove it for yourself. As you check through the ads in the Daily Freeman today just count the number of things that make life pleasant which you might never have heard about if you hadn't "seen them in the ads." And count the number of things you'd like to buy but couldn't afford (like tomatoes at fifteen cents apiece) if advertising hadn't made them so cheap and plentiful.

Perhaps you'll agree—we could get along without advertising—along with tomatoes and fountain pens and electric fans and swell silk stockings at 69c.

But, honest—wouldn't it be a tiresome old world?

Yanks Split Twin Bill With A's; Cubs Tie Cards For Second Place

By The Associated Press
New York, Sept. 4 (AP)—The Yankees split a twin bill with the Athletics today, losing the first game but winning the second, 4-3. The Athletics won the first game, 4-3, in 10 innings. The Yankees won the second game, 4-3, in 10 innings. The Yankees' record is now 10-10. The Athletics' record is now 10-10.

Yesterday's Stars

(By The Associated Press.)
Wes Ferrell, Red Sox—Stopped Senators with nine hits for 13th victory.
Pie Traynor and Fred Lindstrom, Pirates—Former singled home winning run in ninth inning of second game; latter collected double and six singles in double bill.
Monte Pearson, Indians—Gave Browns six hits and contributed homers in opening game victory.
Fred Frankhouse and Huck Betts, Braves—Both pitched six-hit ball to give Braves two victories over Dodgers.
Hack Wilson Released.—Philadelphia, Sept. 4 (AP)—Hack Wilson, once the mightiest right-handed hitter in the National League, has been released. The Philadelphia National League club announced today. Wilson lasted less than a month with the Phillies, having been signed August 10. He was given a chance to play regularly but failed to hit and finally was kept on the bench.

"A TOUGH ONE TO LOSE"

THE SPORTLIGHT BY GRANTLAND RICE

THE BATTLE OF BROOKLINE
They are setting up the guillotine at Brookline now. They are sharpening the big steel blade that within a few days will begin to descend upon the bare necks of more than 180 of the best amateur golfers in the world. For in the new system of 18-hole match play which begins next Monday, star entries will be falling faster than dead leaves blown from an autumn oak by an autumn gale.
You can get some idea of the action that will take place from the fact that there will be 172 18-hole scrambles before the four survivors get their shot at the longer 36-hole match.
As almost anything can happen in an 18-hole match where quality meets quality, here is one championship where all guessing runs up against a great rock in a fog.
On next Monday there will be 52 matches among 104 competitors, with 76 drawing byes.
This will leave 128 survivors by Monday night. On Tuesday there will be 64 hand-to-hand conflicts all day long. This gives you some idea of the match play action that will take place, and there will be no let-up on Wednesday when two sets of 18-hole rounds will be fought to a finish in the process of lopping down the field.
Any golfer who can wade through this wild tangle, ducking the guillotine, will need a few weeks' rest for the purpose of restoring a set of shattered nerves, frayed to the cracking point.

STARS OF THE FIELD
In looking over the long list of qualifiers, the chance for any prophecy becomes worse and worse.
Certainly around the top one must think of George Dunlap, Jr., defending champion, Lawson Little, British champion, and Johnny Goodman, ex-open champion.
These three have youth, skill, fine tournament temperaments, and about everything needed to get along.
Yet all three may be turned back by Tuesday night, with the championship just warming up.
In addition to their other qualifications, all three of these can putt—and that is a vital matter in a fast, short match where one or two missed putts can upset the apple cart.
Dunlap's fine steadiness—Lawson Little's power and control—Goodman's play up to and all around the greens—plus their youth and stamina—these make them three of the leading favorites.
Then there will be Francis Ouimet, for whom Brookline carries a memory he will never forget.
Ouimet is a great match play golfer, one of the best of all competitors, with as much skill left as he ever had. He may easily be a wounding thorn in the side of more than one star youngster, dreaming of the hour.
There will be at least ten ex-champions starting the parade, dating back 30 years to Chandler Egan, who won in 1904 and then repeated in 1905—and just a year ago at the age of 50 eliminated Johnny Goodman, then wearing the open crown.
A large part of the history of American golf will march by at Brookline—Egan, Chick Evans, Francis Ouimet, Bob Gardner, Max Marston, Jesse Guilford, Jess Sweetser, Herron, Johnston and Somerville—all playing good golf today.
One of these may furnish the shock of the week, but the physical grind will work against most of them.

THEN THE KIDS
There are fine young golfers scattered all over the bunkered map who will come charging along with high hopes and golden dreams.
There will be Zell Eaton from Oklahoma—western champion and one of the best of the let—Scottie Campbell from Seattle, Canadian champion and Goldman from Texas—Charlie Yates, intercollegiate champion from Atlanta—Charley Kocis from Detroit, another able stylist who can go the route—Rodney Bliss from Omaha to help Johnny Goodman carry on the traditions of this golfing stronghold.
It will be interesting to compare the styles—the form—of the older stars with that of the younger generation.
Many of these younger entries are now seasoned veterans. They have been under the strain and grind of hard tournament play for several years so they are not fluttering novices all ready to be broken up.
They are all set to tear into the man they meet, having no particular thought about his reputation. For these "yesterday's dead today"—and "today will die tomorrow."

TOUCH AND TIMING FOR THE DAY
Golf is a game beyond all reckoning. It is largely a matter of mental attitude—of touch and timing for the day—or the week.
One day you have it—and the next day it is gone—and there is no reason to show why.
The element of luck is also terrific. One entry may shoot a 72 and lose, as another turns in a 79 and wins. One golfer may shoot a 69 in the morning and then an 83 in the afternoon.
These are among the elements that add to the uncertainty of sport. Esan shot his head off against Goodman—and had little left for his next start.
The physical side isn't so killing, but the nerve and mental strain of match play in short rushes is another matter.
It will be a punishing hike from Monday morning to late Saturday afternoon when the final winning putt slips into the tin, and there is just one survivor left from the 150 who started out in August.
Certainly no other championship ever offered as much dizzy action as the Battle of Brookline offers in advance.

Thumbnail History Of America's Cup
No. 8. Mayflower wins in Doldrums.
New York, Sept. 4 (AP)—True British sportsmanship was never better exemplified than in the 1886 America's cup racing season series between the English challenger, Galatea, and the successful American defender, Mayflower.
Mayflower, a broad-beamed sloop, built for the same Boston syndicate that had sponsored Partian the year before, took the first race of the series of three from Galatea with more than 12 minutes to spare.
The second race, sailed over the 40-mile windward-leeward course was declared "no count" because neither yacht finished within the time limit owing to a light breeze.
Lieutenant Henn of the Royal British navy and owner of the challenger was taken seriously ill during the re-running of the second race. Although he was unable to pilot his vessel he refused to ask for a postponement and installed the mate of Galatea at the tiller.
The wind died on the outward leg of the race and Mayflower's crew worked faster than Galatea's in setting light sails and reached the mark more than a quarter of an hour ahead.
A light breeze came up on the beat back and Mayflower drifted across the finish line within 10 minutes of the expiration of the time limit. Galatea followed her nine minutes later.
(Tomorrow—Thistle from Scotland.)

St. Remy Trims Hercules By 5-2; Wilburites Win Two Out Of Three

The St. Remy A.C. celebrated Labor Day at home by defeating the Hercules Powder Company nine to two, making up in part for the 3-0 out they dropped to the Irish Bows Nine on Sunday at the same diamond.
Yesterday the St. Remy boys swung the wagon tongue more effectively, touching Ken Best for 15 hits while the Powdermakers got to Geisler for 11. Geisler had six strikeouts and Best three. Kreppel and Schussler featured the Saints hitting attack with a triple apiece. Murphy hit a double. Peterson, Cullum and Van Etten of the Powdermen smacked out a double each.
Sunday in their losing fight against the Irish Bows Nine of Wilbur, the St. Remy tossers got only 10 hits off Eddie Scherer, compared to their holiday clatter off Best. Scherer struck out five battersmen. Charlie Beck, Scherer's opponent on the mound, was touched for 12 bingles and struck out three.
Bingles pitched a good game. Scherer featured the hitting attack of the Irishers by smacking out the pill three out of four times at bat and scoring two runs. Wenzel hit three out of three and also brought in two tallies.
In taking over St. Remy, the Irishers hung up their second victory in two days. Saturday afternoon they won 12-9 at the Institution for Defective Delinquents at Napanoch. "Pucker" Davis and Joe Mahar holding the wards of the state to nine hits. Davis gave five and Mahar four. The strikeouts were Davis: nine Mahar five and Grouseky, the Napanoch pitcher, seven. He was touched for 19 hits by the Wilburites. One was a triple by Best and two were doubles by Dulin and Zoller. Kerr made a two-sacker for Napanoch.
Although they won two, the Irishers did not go over the week-

and holiday period without a loss. Monday they journeyed to Pine Hill and were edged out 11-10 by the village diamond experts who scored two runs in the ninth and final inning to capture the duel. Opposing batters: Bud Zoller and Kozlowski for Wilbur; Lester Cauntis and Marston and Satter and Harrison for Pine Hill.

Kaslich A. C. Takes Hurons In Twin Bill

Yesterday afternoon at the opening of their new diamond the Hurons Indians went down to defeat at the hands of the Kaslich A.C. team. The A.C. won both games 5-3 and 6-4.
In the opening tilt, Wood was the star for the A.C. and allowed 15 hits, while his team mates struck Hornbeck for 15. The A.C. boys were better bunched than the Indians and were the more telling. Debnick registered a three base hit and Chambers, Regan and Neff accounted for two baggers.
Chambers did the hurting for the A.C. in the nightcap, and led the Hurons to nine blows. Winkky graced the slab for the Indians and was touched for 13. The 132 feature in this game was the home run that Gadd, the A.C. keystone barker, smacked out of the field. Steigward, Kelder, Snyder and Winkky got two base hits.

Schryver All Stars Lose To Saugerties Nine By 3-1 Count

The All Stars went up to Saugerties Monday and dropped a 3-1 decision to the Saugerties nine. The win puts the upriver boys one up on the All Stars, each team having previously won a game.
The Kingston boys were unable to clamp on the sphere as offered by Shackett and at the end of nine innings of futile fanning, had only three hits to show for their efforts. Sicker hit a two bagger, Carpenter a single and Ed Burgevin rapped a home run. Thomas and Martin for the All Stars were nicked 11 times.
Burgevin's homer in the seventh was probably the longest hit seen on the Saugerties diamond this season. It was directly after Ed's clout that Sicker hit his two bagger. For a moment things looked a little brighter but Shackett settled down and the next three men went out.
Saugerties took the lead in the third when two runs crossed the platter. They followed this up with another in the sixth. The seventh was the All Stars' big chance but Shackett continued to hold the situation well in hand and the Lumbermen were unable to keep their rally going.

Vines Gives Views On National Tennis

By BOB CAVAGNARO
Associated Press Sports Writer
Forest Hills, N. Y., Sept. 4 (AP)—George Martin Lott, Jr., of Chicago, the Davis cup doubles veteran, is rated by no less a talented performer than Ellsworth Vines as having the best chance of dethroning Fred Perry, the sparkling Briton, in the current men's national singles tennis championship.
Vines, twice winner of the national crown and a professional since the first of the year, based his calculation on the belief that "it will take a heady player as well as an able shotmaker to defeat Perry."
"George has both—the shots and a smart, quick acting brain," Vines said today.
"I had lunch with Fred Perry the other day and he impressed me as being a little dubious about his chances against Lott. If form holds true, they'll probably meet in the fourth round and their match very likely will develop into the best in the tournament."
Lott isn't Vines' choice to win the championship, however. The lean and lanky Californian's mind isn't made up on that point.
"There are too many youngsters to be reckoned with today," he said. "It wouldn't surprise me at all if young Frankie Parker was in the semi-finals, or for that matter, the finals."
Rain yesterday put the tournament program a day behind, with the result that twenty three second round matches are on the schedule today. Because of the postponement, the final scheduled for Saturday, will not be played until Sunday.

Yellow Jackets Will Meet Tonight at 8:30

The Yellow Jackets will hold a meeting tonight at 8:30. All members are requested to be present. Sunday morning the team held its first sign practice at the Fair Grounds. Twenty players attended and the team is shaping up nicely.

"If Sunshine Follows The Rain, We Will Have Good Team" Says Layden

By PAUL MICKELSON
Associated Press Sports Writer
South Bend, Ind., Sept. 4 (AP)—If sunshine follows the rain, watch out for Elmer Layden's "new deal" in football at Notre Dame.
"It's been raining at Notre Dame ever since I took over the coaching job," the new head man of the "Fighting Irish," who made football history as one of the Four Horsemen, said today as he talked over this fall's prospects.
"If sunshine follows the rain or if a rocky road always leads to a smooth highway, maybe we'll start out with a good team after all this year."
To start with, it rained sad news on graduation day when we lost 13 of our best players, all but wrecking the line. Then 14 more were lost through ineptitude and two fine prospects were injured to make their chances of playing extremely doubtful. Then, to top it all off, Johnny Young, a great halfback whom we figured on as the key man of an inexperienced backfield, was cut down by death.
Crying crocodile tears is a favorite sport of college football coaches, but those of Layden's are genuine. He's in a tough spot for a first season as head coach with a junior team coming up. Yet, he expects a budding, interesting team this fall.
"Everything has to be developed," he said, "but I rather like that in a way. Sure, we're going through games this fall especially those to be filled by inexperienced men. But our greatest goal, naturally, is to engender a fine spirit, develop a hustling team with a great coach. Layden is satisfied with his odds, but faces a task in developing probably an entire new set of tactics, guards and centers. His football position is well fortified with Melnikovich, Don Eifer, and Fred Canido, but the halfback job is doubtful with a lot of candidates none of them outstanding except Andy Piller.
The schedule:
Oct. 6—Texas at Notre Dame.
Oct. 13—Purdue at Notre Dame.
Oct. 20—Carnegie Tech at Notre Dame.
Oct. 27—Wisconsin at Notre Dame.
Nov. 3—At Pittsburgh.
Nov. 10—Navy at Notre Dame.
Nov. 17—At Northwestern.
Nov. 24—Army at New York.
Dec. 1—Southern California at Los Angeles.
(Tomorrow—California.)

Cronin Injured Is Out for Some Time

Washington, Sept. 4 (AP)—The Washington Senators will finish their plague-infested baseball season with Joe Cronin, youthful manager, absent from the lineup.
Cronin, who piloted the team into first place in the American League last year, broke his left wrist yesterday in a collision with Wes Ferrell, Boston Red Sox pitcher.
Al Schacht was placed in charge of the team until Cronin recovers sufficiently to manage the team from the bench.

Washington, Sept. 4.—A survey of the housing situation in the United States, conducted by the Federal Bureau of Investigation, has revealed that nearly 40 per cent of the dwellings in the country are owned by those who live in them.

The survey, which was conducted by the Federal Bureau of Investigation, was the first of its kind since the war. It was based on a sample of 10,000 dwellings in the United States.

The survey revealed that 38 per cent of the dwellings in the United States are owned by those who live in them. This is a significant increase from the 32 per cent reported in 1920.

The survey also revealed that 62 per cent of the dwellings in the United States are rented. This is a significant decrease from the 68 per cent reported in 1920.

The survey also revealed that 24 per cent of the dwellings in the United States are owned by corporations. This is a significant increase from the 18 per cent reported in 1920.

The survey also revealed that 76 per cent of the dwellings in the United States are owned by individuals. This is a significant decrease from the 82 per cent reported in 1920.

The survey also revealed that 24 per cent of the dwellings in the United States are owned by partnerships. This is a significant increase from the 18 per cent reported in 1920.

The survey also revealed that 76 per cent of the dwellings in the United States are owned by individuals. This is a significant decrease from the 82 per cent reported in 1920.

of encumbrance and those mortgaged. In the south Atlantic states there was also an almost equal division. In New England on the other hand the largest percentage of the dwelling survey is reported as mortgaged. For this division the reports have not been so complete. In fact the department says an exact picture of the situation in New England cannot be had as yet.

In their respective groups, the cities of Burlington, Vermont; Portland, Maine; Wilmington, Pa.; Wheeling, West Virginia; Knoxville, Tennessee; and St. Paul, Minnesota, are reported to have the best showing of "owner-occupied" homes free of mortgages as compared with those which are encumbered.

Of all the "owner-occupied" dwellings investigated by the department, more than 550,000 are reported to be free of all encumbrances, and 4,500,000 are reported to be mortgaged. The condition of the remaining 1,410,000 "as yet unknown." The survey would seem to indicate that, of those units for which the condition was reported, some 45 per cent were unencumbered in any way and 54 per cent mortgaged to some extent.

Germs Survive Freezing

Germs frozen for weeks in liquid helium have been found capable of propagating when thawed out.

Food For the Youngsters.

Food habits which may affect a child's health all his life are formed early. Serve foods which the child needs for good health, and have him learn to like them.

A Cornell bulletin tells what food to give children who are two to six years of age, too young to go to school. It is brief, only four pages, but concise. What to feed, how much to feed, and when, are discussed. Homemakers should find the bulletin useful.

QUESTION BOX
By ED WYNN
The Parlor Poet

Dear Mr. Wynn:

I have just arrived in America from my home in Ireland. I always heard this was the land of opportunity. In fact, since my arrival I have heard you can pick gold up in the streets in this country. When I got off the boat yesterday I saw something shining on the ground. I picked it up and, sure enough, it was a five-dollar gold piece. I was going to put it in my pocket when I noticed a man holding his hat in his hand and a sign on his head read: "Please help the blind"—so I dropped the five-dollar gold piece in his hat. Did I do right?

Truly yours,
M. E. GRANT.

Answer: You did the right thing giving the gold piece to the blind man, because you can see to pick them up.

Dear Mr. Wynn:

I live in the country and am twelve years of age. My boy chum of the past four years doesn't play with me any more. We had a fight. He says that my father went over to his father's home and stole the "gate" from in front of his father's house. If this is true why doesn't his father say something to my father for taking his father's "gate"?

Truly yours,
JGO BAREFOOT.

Answer: The reason his father doesn't say anything to your father for taking his father's "gate" is that his father is afraid that your father might take "offense" (a fence).

Dear Mr. Wynn:

I am a schoolgirl and my English teacher wants me to write a sentence with the word "and" five times in succession, and still write it sensibly. Can you help me out?

Yours truly,
I TALLIAN.

Answer: That is very simple. Say you were having a sign painter paint a sign which should read "Silks and Satins" and say the sign painter connected the whole thing like this: "SILKSANDSATINS" and you wanted him to paint it over so it would be right. You would say to him: Paint this sign over and be sure to leave a space between "silks" and "and" and "and" and "satins."

Dear Mr. Wynn:

I know you are an actor and a student of the theater. Can you tell me when the first theatrical entertainment took place and where?

Yours truly,
IMA THESPIAN.

Answer: The first theatrical entertainment was in the Garden of Eden when Eve appeared for Adam's benefit.

The Gerrymander, an Old Scheme Used in Politics

The gerrymander consists in laying out electoral districts in such a way as to give the party conducting the operation an unfair advantage over its opponent. An authority defines the act as throwing "the greatest number of hostile voters into a district which is anyhow certain to be hostile, and adding to a district where parties are evenly divided a place in which the majority of friendly voters is sufficient to turn the scale."

Notable examples of gerrymandering came into notice near the end of the last century. For example, in 1888 the Republican majority in Ohio was estimated at 20,500. Two years later the Democrats carried the state legislature and changed the districts so that the Republicans could get only 7 out of 21 congressmen. Later on the Republicans had their turn in power and arranged the districts so that they elected 17 congressmen.

Famous gerrymandered districts have been the "Shoe-string" district in Mississippi, 250 miles long and 30 miles wide, in which the negro vote was concentrated; the "Dumb-bell" district in Pennsylvania, composed of two separated groups of counties made "contiguous" by a single connecting county; the Missouri district, which was made longer than the state itself.

It is believed that the term gerrymander originated in Massachusetts in 1812—Exchange.

Ants Outdo Man in Many Demonstrations of Skill

With well trained soldiers, skillful builders, successful farmers, and able rulers many of the ant nations challenge some of man's most outstanding accomplishments, says Pathfinder Magazine. These wonderfully organized tribes perform wonders which are hard to understand. They pursue methods remarkably similar to those of man. Their formations in war show a perfection which is not only similar to but rivals that of the world's best armies. Working tirelessly some of them, instead of hunting all of their food, actually produce part of it themselves. Certain varieties of mushrooms have been domesticated by them and are grown in underground beds receiving careful cultivation and watering.

Most striking of all is their building. Some of the tower-like structures are erect would far outstrip those of man if they were considered in view of the comparative sizes of the buildings. Some of the buildings reach a height of 20 feet and withstand severe storms remarkably well. Workers in the tribes are aided by slaves captured in wars.

Ducks Take Bore to Market

On the rivers of China, flocks of ducks—sometimes as many as a hundred—often take their owner to market. The owner sits in his stable rowboat while the ducks, tied to the craft, tow him up the stream.—Cotter's Weekly.

these pupils of Milton who prefer the Marlborough High School was also brought up. After some discussion it was decided to make provision for these pupils too. There are seven or eight pupils from the Milton district who have been attending school in Milton and furnishing their transportation. Teachers of the school were also in attendance at Friday's meeting as was Mr. Johnson, district superintendent, for the purpose of selecting text books for the various grades in the schools. This year for the first time the board of education will furnish the text books to be used by the students. The books were selected at the session Friday evening.

The Rev. Russell Branson of Clintonville conducted services in the Friends' Church Sunday afternoon at 4 o'clock.

Five carloads of Bartlett pears raised in this section have been exported to Europe. The pears were handled and shipped by the Hudson River Fruit Exchange of Milton. All of the Bartlett pears exported by the exchange were sent to England. The pears were purchased from growers throughout this section. This practically finishes up the Bartlett crop at least so far as the exchange is concerned. As a result of exporting so many, few Bartlett pears are in storage at the Milton cold storage plant. It is estimated that only about 150 bushels are in storage.

Seven 4-H Members Leave for Syracuse

Seven Ulster County 4-H members left for State Fair, Syracuse, New York, on Sunday morning, September 2. They will stay in the new Pyke House, named after former State Commissioner of Agriculture B. A. Pyke.

Four delegates will take part in the various activities for the whole week. They are: Helen Anderson, Flatbush; Ida Mae Davis, Olive Bridge; Robert Morehouse, Lake Katrine; and Hayward Mitchell, Rifton.

William Hasbrouck and DuBois Jenkins, New Paltz, and Bernard Kroes, Ellenville, are the members of the Ulster County 4-H dairy judging team that will take part in the state contest on Monday morning.

Five more members will leave Wednesday
